DRIFTING INTO COURT

New Complication in the Miners' Strike.

OPERATORS ENJOIN THE STRIKERS

Miners' Officials Claim That It Will Make No Difference as They Intended No Hostilities—Labor Leaders' Conference Well Attended—Its Outcome Awaited—Quiet Reigns at All the Mines.

PITTSBURG, July 27.—Yesterday afternoon Rufus C. Crawford, owner of the Banola mines, went into court and secured a preliminary injunction restraining the miners' officials and strikers from interfering with the employes or congregating about the mines. The hearing was set for Saturday. President Dolan said the miners' officials would not attempt to fight the injunction. They are not hunting trouble, he said, and would not deliberately violate the law.

Miners' Officials Dolan and Warner have assured the sheriff that the strikers had no intention of marching on the mines of the New York and Cleveland Gas Coal company. President Dolan said it was not intended to lose the sympathy of the public by any ill-considered display of force. "At the meeting on Thursday," said he, "we want only our speakers and Dearnitt's men there, and it is my opinion that this plan will be successful. If we get a good meeting, I think we can show to the public and the other miners that Dearnitt's men still have manhood enough left in them to come under our standard and join the strike. We have told the sheriff that our intentions are peaceful and he believes us. We, therefore, will not be interfered with by him or his deputies."

A body of 1,000 miners, carrying heavy clubs, marched to the Castle Shannon mines at Oak station, where about 40 men were working, and prevailed upon them to come out. There was no disorder.

The sheriff of Westmoreland county has been called on for deputies to protect the miners at the Rostraver mines at Webster. The Webster company proposes to start with nonunion miners.

DEBS IN WHEELING.

He Thinks the Fairmont Miners Will Yet Join the Strikers.

WHEELING, July 27.—Eugene V. Debs made his appearance in Wheeling yesterday afternoon and was met by a large crowd at the railroad station. Last night he addressed a mass meeting in the central part of the city. The efforts to secure the public building square for the meeting failed and the meeting took place a square away.

In speaking of the situation in the Fairmont coal fields, Debs said he felt encouraged. A number of men joined the strikers there on Sunday and others are expected to follow. He says the efforts of the organizers would have been more successful but for the fact that the operators, as he claims, prevented their men from attending the meetings. Practical slavery, he says, exists in the Fairmont mining region. "Although the press may report the miners as living under favorable conditions in the Fairmont region," said Debs, "I have collected data from farmers, miners and storekeepers, which shows that the mining companies cheat their employes in the mines, at the scales and in the company store. The intimidation practiced by the operators has prevented many from joining the strike, but we are hopeful of ultimate success in West Virginia."

QUIET AT CANONSBURG.

Strikers Making but Little Effort to Get the Men Out.

CANONSBURG, Pa., July 27.—Everything is quiet at the mine of Cook & Sons. The mine was running yesterday, but very little coal was brought out. The strikers made but little effort to induce the men to remain out. The strikers can not safely trespass on the company's property and the miners who are working keep so close to the mine that the strikers can not reach them.

About 200 strikers from Millers' Run arrived at the camp at McGovern yesterday afternoon by way of Plum Run and Houstonville. About 40 more came through here in the evening from Bishop. They brought a large quantity of provisions to the camp.

A wagon loaded with provisions from Finleyville passed through here yesterday en route to the camp. About 100 strikers returned home yesterday evening.

A number of small girls whose fathers are encamped at McGovern made a canvass of the town to secure supplies yesterday. They secured quite a large quantity of food.

The injunction against the miners' officials and others obtained last Thursday was made permanent yesterday.

LABOR LEADERS' CONFERENCE.

It Will Be Well Attended, but Its Results Are Uncertain.

WHEELING, July 27.—The indications are that the conference of labor leaders, made up of the executive officers of the various organizations centered under the American Federation of Labor, will be largely attended. Among the arrivals are Eugene V. Debs, head of the Social Democracy; Vice President Rea, of the Decorators and Painters; President Mahon, of the Street Car Workers; President Samuel Gompers, of the Federation; President Ratford, of the

United Mine Workers, and President Sovereign, of the Knights of Labor.

There is some difference of opinion as to the result of the conference. It is believed that the railroad conductors, firemen and brakemen will be asked to refuse to handle West Virginia coal. There is some talk of a general sympathetic strike, but this does not meet with anything approaching even partial favor. A boycott of West Virginia coal in the event that the miners of this state decline to join the strike will be discussed at the conference.

Out, Quiet and Firm.

SPRING VALLEY, Ill., July 27.—The miners in this district are all out and remain quiet but firm. At Marquette C. J. Devlin has ordered the superintendent to give out rations to the miners until the end of the strike.

NEW TARIFF REGULATIONS.

They Went Into Effect at Midnight, Friday, July 23.

WASHINGTON, July 27.—The treasury department has sent a circular telegram to all principal officers of customs directing them to apply the rates of the new tariff bill to all customs business at midnight, July 23.

The opinion of the attorney general has not been requested on the matter, the department holding that the question is of sufficient importance to justify them in taking it to the courts for final determination, independent of what the views of the law officers of the government might be as to the merits of the case.

Senator Allison was at the treasury department and in the course of the conversation on the subject said that in his opinion there was no reasonable doubt that the act covered all of the day on which it became a law. This also is the view of all prominent officials of the treasury department, including the collectors of customs at New York and several of the leading ports of the country.

Grasped a Live Wire.

NEW YORK, July 27.—William Karstens, 28 years old, a teamster, was electrocuted on a telephone pole in front of Kahold's hotel on Commerce street, Newark, last night. He touched a live electric light wire, a flame shot forth and the man dropped from the pole dead. Karstens formerly lived at the hotel. While there he was in the habit of climbing up a high pole to the first crossarm used by the telephone company and sitting on it. Last night he tried it and grasped a live wire.

An Inheritance Dissipated in Trade.

RICHMOND, Ind., July 27.—Orville E. Toney, living in the vicinity of Boston, some months ago inherited \$10,000, and he purchased one of the finest farms in that vicinity. He also engaged in trading, and was an easy prey for men shrewder than himself. As a result he issued promissory notes, beside which he mortgaged his farm, finally trading his possessions for a farm in Texas and leaving the country. Many creditors regret his absence.

Too Venturesome Young Man.

PARIS, July 27.—A special dispatch from Grenoble says that the body of young Sorrel, the daring Alpine climber, whose venturesome feats have attracted attention this summer, and who started on the 18th to make the ascent of Mount Taillefer, has been found at the bottom of a deep crevasse, with his neck broken. Mr. Sorrel was only 19 years of age. Evidently he had lost his way in the fog.

Captain J. S. Stees Dead.

SAN FRANCISCO, July 27.—Captain J. S. Stees, formerly of this city, but lately of St. Paul, Minn., is dead in this city of a cold contracted on his way out here some two or three weeks ago. Captain Stees has taken a prominent part in Grand Army work, and in addition to this was a leading member of the Society of Sons of the American Revolution.

Prostrated by Lightning.

SCOTTSBURG, Ind., July 27.—During a storm, lightning struck the residence of George Rainey, near this city, passing down the chimney and tearing out several rafters before spending its force in the fire place. The family were seated in the room, and all were affected by the shock, Mrs. Rainey being badly prostrated.

A Kansas City Pioneer Gone.

KANSAS CITY, July 27.—Mrs. Sarah W. Coates, aged 65 years, widow of the late Kersey Coates, is dead. Mrs. Coates was a Pennsylvania Quaker. She came here in 1859 with her husband. Mr. Coates was one of the founders of the city and one of its foremost citizens, and his wife was a leader in social and other circles.

Powderly's Appointment.

WASHINGTON, July 27.—The recent appointment of Hon. T. V. Powderly as commissioner general of immigration was signed by the president yesterday afternoon. Mr. Powderly's nomination for that office failed of confirmation in the senate because of the opposition to him on the part of labor organizations.

She Saw Napoleon.

NEW YORK, July 27.—Mrs. Gertie Bemak Schlotman is dead in Jersey City in her 101st year. She was born in Prussia. She saw Napoleon's march through Prussia and waved a red handkerchief at the great emperor.

Colonel J. B. Anderson Dead.

MANHATTAN, Kan., July 27.—Colonel John B. Anderson, one of the oldest and most prominent citizens of central Kansas, is dead.

CALDWELL'S ESTATE.

The Late Railroad President Was Worth \$3,000,000.

DIED WITHOUT MAKING A WILL.

Two Girls and a Boy, Children of the Deceased's Sister, Will Inherit This Magnificent Fortune—Evidence of a Foul Crime—Searching a Prehistoric Burying Ground—Other Ohio State News.

CLEVELAND, July 27.—John Hoge, a millionaire Zanesville manufacturer and politician, is in the city, going over the private papers of the late General D. W. Caldwell, president of the Lake Shore road, who died last week after a short illness, and was buried in Zanesville Saturday. It is understood that the Caldwell estate will invoice not less than \$3,000,000, and that a conservative appraisal will maintain these figures.

The probability is that the general died without leaving a will; in consequence the three Mohler children, two girls and a boy, the children of General Caldwell's deceased sister, will inherit this magnificent estate, and the likelihood is that Mr. Hoge, the lifelong friend of the great railroad magnate, will be appointed administrator at the request of all parties interested, the heirs and Cleveland friends of the distinguished dead man, as it had often been his repeated request that if anything should happen him his private affairs were to be turned over to his confidential business associate, Mr. Hoge.

WAS IT A MURDER?

Horse and Buggy Found, but the Owner Missing.

MARION, O., July 27.—The police here think they have a clue to a possible murder. Last week a horse and buggy were found on an abandoned track of the Erie railroad. The horse was nearly dead from misuse and being overdriven. The buggy was filled with patent medicine.

Joseph Wall, an Erie telegraph operator, has reported that he and several others had seen a doctor selling medicine west of Green Camp several days last week and his rig bore the description of the one found here. Police think that this is the rig and that the old doctor has been murdered, robbed, his body thrown in the Scioto and the horse driven here and left on the old Erie track.

Searching a Prehistoric Burying Ground.

PLAINVILLE, O., July 27.—Under the supervision of Dr. C. L. Metz, the widely known archaeologist of Madisonville, O., the Peabody institute of Boston, Mass., this morning began the work of excavation on the prehistoric burying ground, a mile below this place on the 24-acre tract of land known to be rich in prehistoric relics and remains, locally known as Whisky Hollow, recently bequeathed to the Peabody institute by the will of the late Phoebe Ferris. Harvard has sent three students here to attend the work of excavation as long as it is in progress.

Made an Assignment.

FINDLAY, O., July 27.—Gillespie & Lovell, who purchased the Huber drug store a few months ago, have assigned to Dr. M. S. Williamson. Assets about \$5,000, which will cover the liabilities. At the same time A. A. Gillespie, a member of the firm, made an individual assignment of personal property and real estate at Findlay to M. G. Foster.

Pioneer Passes Away.

WILLIAMSBURG, July 27.—William L. Kain died in his 82d year at his home Sunday. His grandfather, James Kain, brought the first family to this town, and his father Colonel Dan Kain, fought in the war of 1812. Mr. Kain and his wife celebrated their 60th wedding day only three weeks ago today.

Died While Reading a Newspaper.

BELLEVILLE, O., July 27.—Attorney George Emerson who was nominated by the Republicans for the Ohio legislature from this county, died at 6 o'clock yesterday evening while reading a newspaper at his home. The bursting of a blood vessel in his brain is given as the cause.

Trying to Settle a Wage Scale.

YOUNGSTOWN, O., July 27.—The Brown Binnell Iron company officials are trying to settle the wage scale with their men independent of the Amalgamated association and on the basis of the arrangement effected between Jones & Laughlin of Pittsburgh and their employes.

Asking For a Receiver.

BELLEVILLE, O., July 27.—Judge Dow has been petitioned to appoint a receiver for the Savings Building and Loan company of this place by the bondsmen of the late Secretary Lane, who was short in his accounts \$3,500.

Saloonkeeper Suicide.

BOWLING GREEN, O., July 27.—John Spith, a saloonkeeper, committed suicide Sunday evening by the strychnine route. He put the poison in water and drank it before his family, then handed his wife the label. Despondency.

PEACE CONFERENCE PRELIMINARIES.

European Arbitration of Any Difference That May Arise.

CONSTANTINOPLE, July 27.—At the setting of the peace conference the ambassadors presented the peace preliminaries drafted by the powers, which

provide for European arbitration of any differences that may arise between the Greek and Turkish plenipotentiaries in arranging a definitive treaty. It is stated that the powers will insist upon the acceptance by the porte of this provision, and its reception, therefore, by the sultan will be highly significant.

The desire of Germany to institute a European control of Greek finances still hampers the settlement of the indemnity question. It is understood that the Volo-Larissa railway will be transferred to the Greek administration, with the stipulation that the same facilities shall be granted to Turkey for the transportation of troops as are granted to the Greek government. This, therefore, does not indicate an intention on the part of Turkey to evacuate Thessaly, but is merely a measure of economy.

A YOUNG LADY'S DEATH.

First Thought to Be Lightning, Then Suicide and Now a Murder.

BOSTON, July 27.—It seems as if every hour brings forth new developments concerning the death of Alice Barrett of Waltham last Saturday afternoon. She was found dead in the office of Codman & Codman in which she has been employed as a bookkeeper. The building had been struck and set on fire by lightning and it was first supposed that the bolt had killed her, but afterward it was discovered that she had been shot through the heart. A revolver was found on the floor.

Her family are almost positive that the girl was murdered. It was ascertained yesterday that the cash book of the firm, which Miss Barrett had kept for two years and in which she had entered all the cash transactions, had been burned. The police, who have been hard at work on the case since it assumed such a serious phase, are almost satisfied that Miss Barrett burned the book before her death.

With the disappearance of this book the firm finds itself in a most peculiar position. William C. Codman admitted to the police that it was a surprise to him to learn that his confidential clerk and bookkeeper had destroyed the cash book. He also admitted that the destruction of the book would hide any irregularities that may have existed so effectually that it would be almost impossible to discover them.

The absence of the cash book was not discovered until yesterday, when the safe was opened for the first time since one of the firemen hastily closed it at the time of the fire. The safe was found open at that time, and to prevent its contents from being destroyed, it was promptly shut.

Mr. Codman came from Nantucket yesterday, and search was made for the missing book. Among the debris of the fire that had been thrown in the back yard was found 20 pages of the book. The handwriting on the sheets was that of Miss Barrett. Mr. Codman says that it is his personal conviction that Miss Barrett did not commit suicide, but was murdered, perhaps by some one who followed her into the office on Saturday. He does not believe that Miss Barrett embezzled a cent of the firm's money.

COMPTROLLER OF THE TREASURY.

Robert J. Tracewell of Indiana Offered the Position.

WASHINGTON, July 27.—The president has decided to appoint Hon. Robert J. Tracewell of Indiana for the position of comptroller of the treasury. President McKinley, realizing the important questions coming up for decision in the comptroller's office, has been giving the matter of the selection of an appointee considerable attention, and finally concluded to give the place to Mr. Tracewell.

The appointment, it is said at the White House, is entirely one of merit. Mr. Tracewell being selected because of his fine legal attainments. The position has been vacant since the retirement of Comptroller Bowler on the 1st inst.

Mr. Tracewell is a native of Virginia, but in early life moved with his parents to Indiana, where he has since resided. He was a representative in the Fifty-fourth congress from the Third district of his state, and is 45 years of age.

Murder Among Poles.

PITTSBURGH, Pa., July 27.—A number of Poles were drinking in a saloon here last night when a quarrel arose and in the melee Charles Millnsky was struck by Andrew Jovarsky. The latter attempted to escape, but was caught by the crowd and beaten unmercifully with clubs, stones and fists. He managed to free himself and running to his house seized a shotgun and fired from the door into the crowd which had pursued him. Antony Narcovich and Michael Solinsky fell seriously wounded. Policemen then forced their way into the house and captured the murderer. He was taken to the Wilkesbarre jail.

Mrs. E. T. W. Packard Dead.

CHICAGO, July 27.—Mrs. E. T. W. Packard, through whose efforts many laws have been passed bettering the condition of insane patients throughout the United States, is dead. The end came yesterday at the Hahnemann hospital after a surgical operation. Thirty-four bills were introduced by her in as many states in the interest of the insane and these laws were enacted. They allowed insane persons a trial by jury and also allowed inmates of an asylum to communicate with friends outside.

ST. JOHN'S, N. B., July 27.—

The body of Ira Cornwall, secretary of the board of trade and of the Tourist association, was found yesterday floating in the river St. John, near Westfield wharf. Deceased was a native of Marbeth, Ont., and for a time was a member of the Montreal Gazette staff.

SPAIN WELL PLEASED

Canovas Does Not Fear McKinley's Administration.

CONGRESS NOW OUT OF THE WAY.

The Spanish Government Preparing a Reply to American Claims—A Memorial on the Subject of Filibustering—Havana Dispatches Report the Surrender of a Number of Insurgents—Many Killed.

NEW YORK, July 27.—A dispatch to The World from San Sebastian, Spain, says:

On learning that the United States congress adjourned without adopting new resolutions in favor of granting belligerent rights to the Cuban insurgents, Premier Canovas said he inferred that President McKinley is as little disposed as was his predecessor to listen to the "Yankee jingoes," in their campaign against Weyler and Spain.

Senor Canovas added that the Spanish government will give due attention to the American demands for indemnity in special cases like those of Delgado and the widow Ruiz, and has granted liberty to American citizens arrested in Cuba.

The premier has frequent conferences with the Duke of Tetuan, Spain's foreign minister, and Calderon Carlisle, the American counsel for the Spanish legation in Washington, who drew up a long memorial on the subject of filibustering expeditions and the similarity of such cases to precedents the United States put on record in the Alabama affair.

Senor Canovas will prolong his stay here until Wednesday in order to consult further with Mr. Carlisle on the best method of replying to the American claims.

WEYLER'S TYPEWRITER TALK.

A Number of Insurgents Surrender and More of Them Killed.

HAVANA, July 27.—According to an official statement, Major Juan Calanegas, an important insurgent chief, with 19 cavalrymen, well armed and supplied with munitions of war, surrendered to the authorities yesterday at Los Palos, in the Havana province.

Official reports from several provinces state that 41 insurgents were killed in engagements with the Spanish troops yesterday, and that 93 insurgents, 34 of whom were armed, have given themselves up.

JAPAN'S REPLY.

She Continues to Oppose the Annexation of Hawaii.

NEW YORK, July 27.—The Herald prints the full text of Japan's reply to Secretary Sherman's note on the Hawaiian question.

The reply indicates that Japan will continue to oppose the Hawaiian annexation treaty.

While couched in polite and diplomatic language, the protest is sufficiently firm in tone to show that Japan will continue to wage a diplomatic war and possibly go further to prevent the consummation of the annexation policy. It is impossible for Japan to "view with unconcern and in a spirit of acquiescence the consequences which would probably follow the extinction of Hawaiian sovereignty," the imperial government declares.

This may not mean that Japan will resist annexation "to the utmost," as Count Okuma is credited with saying in a recent interview, but the general tone of the note is of a character to indicate that annexation without the "acquiescence" of Japan will mean a rupture in the relations between the two countries.

It has already been stated that it is the purpose of the administration to ignore the protest. Its receipt has been acknowledged, but the state department has concluded not to further argue the question, and President McKinley will continue to urge the ratification of the treaty, just as if the protest had never been made.

ON THE WARPATH.

Superintendent McNall of Kansas Starts an Insurance Investigation.

TOPEKA, Kan., July 27.—A movement is on foot among the insurance superintendents of the western states to join hands in a wholesale investigation of the financial condition of the various eastern fire and life insurance companies.

It is said that already things have progressed to such a point that an investigation is assured. Superintendent McNall of the Kansas insurance department, whose fight on eastern insurance companies has brought him into prominence, is one of the prime movers and it was through him that the information became public.

The object is two-fold. One is for the protection of western policy holders and the other is to try and find some irregularity in the management of the big eastern concerns.

Cattle Dying With Hydrophobia.

LANCASTER, Ky., July 27.—In the past week several head of stock around town have died in great agony from hydrophobia. Several mad dogs have been killed. One was shot and instantly killed this morning after making a crowd run pell mell over each other.

Fine Remitted by the President.

WASHINGTON, July 27.—The president has remitted the fine in the case of Addie B. Holland, sentenced in Michigan, November, 1895, to two years' imprisonment and \$250 fine.

The sugar trust has advanced the price of sugar 1-lb and 1 of a cent all along the list, and the work of robbery under the new Republican tariff has commenced. But don't kick if you voted for McKinley.

The Republican judicial ticket will very likely read Dearing and Daum.—County Attorney W. G. Dearing, of Fleming, for Circuit Judge and County Attorney E. L. Daum, of Bracken, for Commonwealth's Attorney.

The fire insurance companies doing business in Ohio received \$7,480,000 in premiums last year and paid out a little over \$3,000,000 in losses. The Attorney General of the State is taking steps to bust the "combine" that is keeping up the high rates.

PRESIDENT McKINLEY waited months until Congress was right on the point of adjourning and then sent in a message "urgently recommending" the creation of a monetary commission to suggest needed changes in our "banking and currency laws." His suggestions were not adopted, and it's extremely doubtful if he expected anything of the kind. It was simply a "grand stand play," as they say.

"Light crops abroad and heavy crops at home, together with a general restoration of confidence, make a combination that can hardly fail to bring a splendid revival in every line of industry and branch of trade," remarks the Cincinnati Times-Star. And the Times-Star knows full well that the "light crops abroad and the heavy crops at home" have more to do with the revival than all the "confidence" imaginable.

ONE of the agreeable features of the rise in agricultural products is the remarkable advance in "garden truck." Potatoes that went begging last July at 10 and 60 cents a barrel are selling by the car-load at \$1.50 to \$1.80 a barrel.—Courier-Journal.

The poor old C.-J. is grasping at straws. Potatoes are higher this year simply because the crop is short. The crop in 1896 was one of the largest ever grown, and of course they were cheap. This year they are scarcer and of course higher. Potatoes, however, are about the only "garden truck" that show any substantial advance in price.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's Drug store. Regular size 50c. and \$1.

ANOTHER ASYLUM SCANDAL.

The Fayette Grand Jury Roasts Superintendent Scott For His "Senseless Parsimony."

The Fayette County grand jury did not indict Dr. Scott, Superintendent of the Eastern Kentucky Lunatic Asylum at Lexington, but filed a report declaring that only his ignorance and glaring incapacity saved him from indictment for malfeasance in office. The grand jury declared that the inmates of the institution, on account of Dr. Scott's "senseless parsimony," did not get food enough. Following is the report:

"It is clearly shown to us that the sweeping reductions in the amount of food given the inmates was the result of no intelligent action or understanding on the part of the Superintendent, Dr. Scott, whose helplessly pronounced incapacity as the head of such an institution was only emphasized by his voluntary appearance before the grand jury, and we could state that his evident ignorance of the affairs and methods at and about the asylum, coupled with the glaring incapacity above spoken of, alone save him from a true bill for malfeasance in office. His senseless parsimony in the matter of issuance of food to the patients we do not find to be prompted by any intelligent, economic method, nor resulting in any personal profit or gain to himself.

"While factional jealousies may have inspired complaints against the Superintendent, such jealousies, if they exist, have not spurred the witnesses beyond the evident truth of the situation. We find that the helpless inmates of this institution do not get food enough, nor are they given the variety in food which they should have; and, independent of the fact that no man, seeking at best an economic record, who is callous enough to starve or at best stint the helpless insane, should hold such a position; we think that his gross incapacity should move the Governor to his immediate dismissal.

"Dr. Scott can not properly conduct this institution, and we hold it disgraceful to the State, dangerous to the health, and a guarantee of the sufferings of the inmates for this person to be continued in the Superintendency of this asylum.

"We would respectfully request that this Honorable Court cause its clerk to forward to the Governor of the State a copy of this report. Respectfully submitted,
 "Wm. HENRY WARREN, Foreman."

The friends of Dr. Scott claim that he is being persecuted by the Frankfort gang with a view of throwing him out of his office, and are loud in their denunciations of the alleged methods to oust him. Some of them go so far as to state their belief that interested persons have carried the present investigations to the grand jury.

It is rumored that there is an open breach between the families of Dr. Scott and Gov. Bradley. The grand jury had possession of the result of Inspector Lester's report of the asylum made last winter, and how that body got possession of the report is causing comment, as no one but Gov. Bradley is said to have access to it.

PINGREE'S PROTEST

Against the Unfairness of the New Tariff Bill.

DETROIT, Mich., July 24.—Governor Pingree to-day wired the following message in duplicate to President McKinley, Senator Burrows and Congressmen Corliss and Spaulding of Michigan:

"I regard the duty on lumber, hides and sugar as unrepugnant, unpatriotic and unfair.

"The lumber now used goes largely into small homes and farm houses and to a class already greatly overtaxed.

"The laborer wears twice as many shoes as the millionaire and must contribute as much for the tax on hides.

"He must use as much sugar and pay as much toward the duty on sugar.

"It is grossly unfair to make the poor pay as much per capita as the rich toward the support of the Government.

"Property and not human stomachs should be reached. Property is protected by our laws and should pay for its protection."

Judge Pugh Complimented.

Cincinnati Times-Star: "Kentucky is lucky in the distribution of appointments by Speaker Reed. Mr. Evans is on the Committee of Ways and Means while Judge Samuel J. Pugh of the Ninth district is a new member of the Committee on Appropriations. Judge Pugh was a new member in the Fifty-fourth Congress. By his careful work he made a strong impression on his fellow members and the result is to-day a splendid appointment given him by the Speaker."

When you see Murphy, the jeweler's stock of "diamonds" and "gold watches," you will be convinced that he carries the "largest" stock. When you learn his prices you will be convinced that his prices are "lower". He never "misrepresents goods." All are "warranted."

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.
 ROYAL BAKING POWDER CO., NEW YORK.

COL. BOONE'S RAILROAD.

Br'er Allen, of Cynthiana, Explains Why Dover Was Selected For the Crossing.

[Cynthiana Democrat.]

Col. Albert E. Boone's great "Black Diamond Railroad" is about completed. It embraces 2,290 miles of road, constructed at an average of \$25,000 per mile, and extends from Pittsburg, Chicago, St. Louis and Cincinnati to Savannah, Ga.

The Ohio river is bridged at Dover, New Albany and Evansville. Though passing through the mountains of Kentucky and Tennessee the highest average grade is only sixty-six feet to the mile, against 100 feet on other roads.

The cities on the line in Kentucky are Dover, Maysville, Mt. Olivet, Cynthiana, Mt. Sterling, Stanford, Danville, Frankfort, Shelbyville. It required great patience and much time to induce the Colonel to cross the river at Dover, but after Captain Sam Stairs had administered a dose of Dover's powders the job was easy enough.

To the Enquirer, Thursday, Col. Boone modestly confessed that he already had the Vanderbilts and other railroad magnates walking the floor.

Appendicitis Defined.

A teachers' examination was held at Seneca lately, at which one of the questions in physiology was as follows: "What is appendicitis, and what are its causes and cures?" Below are given a few of the answers, as reported in the Seneca Tribune: "It is a disease of the appendix, which is located somewhere between the liver and the heart, the organ of the affections." "Cosification of the marrow of the longitudinal shaft bone." "Appendicitis is sunstroke or overheating, caused by a great heat. The cure is to get the patient into a cool place, bath the face and hands with water." "Is the disease of appendice, caused by want of exercise, improper food, clothing and ventilation." "Appendicitis is a condition caused by food substance lodging and causing a blockade in the digestive apparatus. It is cured by surgical operation, in which the obstruction is cut away. A theory is given that the appendix was at one time a tail on man, and is not yet evolved off. It is cut away by the surgeon."

CORN OIL.

A New Commercial Product Coming Into Prominence—It's Wholesome and Palatable.

[Exchange.]

Corn oil is a new commercial product that is gradually coming into prominence for a variety of purposes. When properly refined, it can be employed as an edible for table use, as a paint oil, which will not turn yellow, as an oil for perfumers' users, and in many other ways. It is pronounced more wholesome and palatable for cooking purposes than any other substitute for pure olive oil, and it is the only oil, of a vegetable nature, which will not turn rancid in summer, nor cloudy in winter, at a temperature which renders cottonseed and lard oils almost solid.

Corn oil can be produced very cheaply by every glucose factory in existence, but the process of refining it, and ridding it of its disagreeable properties, is a more difficult task. It is a question with the chemists whether of the two products from corn, glucose and oil, the latter is not the more valuable of the two. What corn oil is now produced finds a ready market, and the demand for it is already greater than the supply. As its value becomes better recognized, its manufacture on a larger scale will be prosecuted and it is destined to speedily find a place among the important chemical and industrial developments of the country. The effect of the new discovery upon Western agriculture cannot fail to be of great benefit, and it is exciting considerable interest among the farmers of the great corn belt of the United States.

STILL ANOTHER ROAST.

This Time Governor Bradley's Organ Takes Shot at the Louisville G. O. P. Convention.

[W. S. Forrester in Frankfort Capital.]

If the alleged Republican ticket nominated in Louisville last week were a good one, if it were made up of capable men, as it is not, if it were even better than the Democratic ticket, it ought to be overwhelmingly defeated, because it represents nothing so much as it represents A. P. A-ism. The editor of the Capital stood nearly alone two years ago when he opposed Todd; few of the business men of Louisville would believe that the Dr. Jekyll who moved among them as a conservative merchant, was the Mr. Hyde that the writer represented him to be, that he was in close alliance with the A. P. A.'s, that he was a corrupt, tricky ward politician, faithless to promises, ready for any sort of dirty deal that might seem to promise him an advantage in getting an office or a campaign fund. Two years have brought the vindication of all that the writer has said of Todd.

The Louisville convention was merely an A. P. A. gathering, mainly composed of the scum of city politicians, presided over by the State President of the A. P. A. Everything said in the convention was given the coloring of this villainous secret society. The language used by the speakers was that of the A. P. A. council meeting; "American citizen," "Patriot," "Friend," the designations impudently assumed by these bribe-taking, vote-selling vagabonds, were significantly and ostentatiously employed by the snivelling seekers after nominations as the pass words to the convention's favor, and applauded with delight by the ragged ruffians and weak witted beggars who made up that miserable assemblage. It will not be denied now that Todd and his gang represent the A. P. A., and that would be enough to damn a decent candidate, a candidate not already damned by his own record, official and political. The contest in Louisville will furnish an excellent opportunity for the decent people to down this gang of offscourings that under the hellish guise of religious proscription are trying to get their mangy heads into the public crib.

Horses Wanted.

Mr. Joe Kindig, of York, Pa., will be at Mose Daulton & Bro.'s stable, Maysville, Ky., on Tuesday, August 3rd, 1897, and will pay the highest market prices for good, sound horses or mares from four to six years old, well broken and in good health. Bring in good ones and get the money for them. Don't forget the date.

On account of the Portsmouth Trotting Association meeting, the C. and O. will sell round trip tickets July 28, 29 and 30, Maysville to Portsmouth, at one fare, \$1.55. Return limit July 31.

The Treasury department has decided that the new tariff bill went into effect after midnight Friday, July 29th.

A SPECIAL from Carlisle says: "Elder A. S. Morrison preached Sunday at the Christian Church on the Harris-Merritt killing at Lexington. He unmercifully scored Judge Falconer, calling him 'an ignorant young man who knew nothing of law or justice.' The sermon created a decided sensation, as most of the members favored Falconer's decision."

River News.

The Virginia for Pittsburg and Sherley for Pomeroy will pass up to-night.

The insurance companies will probably rebuild the Silver Wave for Captain Edgington.

The river is about on a stand here. The rain Sunday night, it seems, did not extend to headwaters.

The funeral of the late S. A. Piper Monday at 11 a. m. was largely attended. Rev. Dr. Scudder, of Carlisle, conducted the services and in his discourse paid a touching tribute to the deceased. Judge Wall, Messrs. Daniel Perrine, John W. Boulden, J. D. Riley, Joel Laytham, Robert Pogue, C. W. Darnall and Dr. J. A. Reed officiated as pall-bearers. The remains were laid to rest in the Maysville cemetery.

Park Theatre.
The best show yet presented was given at the park last evening to a fair sized audience. Mr. Lew Seeker was the bright particular star in the galaxy of entertainers. He had been heralded as a clever artist, and the audience was not disappointed. Miss Wilkes was clever and made a decided hit. Mr. Russell and Miss Paul were pleasing in a nice sketch. III. Chester won approbation for his dancing. "Mlle." Felice, in a neat dance and impersonation, proved her versatility. Nelson and Wilson in new songs were still high favorites and received several encores. The whole show is a No. 1. Our advice is go out early if you expect to get a seat.

Boiler Explosion in Texas.

DENTON, Tex., July 27.—In a boiler explosion of Horton Brothers' thrasher, near Argyle, yesterday, the engineer, whose name is unknown, was killed, and nine other persons injured, two of whom will probably die. The boiler was an old one and had no safety valve. The injured are: H. Dunham, George Crubaltz, Will Bolts, Will Keith, Will Smith and four others. The dead engineer had been remonstrated with several times for allowing his steam to get too high.

Fatal Runaway.

SPRINGFIELD, Mass., July 27.—Mrs. Mary B. Knapp, a prominent resident of Chicopee, while driving with her daughter, Mrs. F. E. Tuttle, in West Springfield, yesterday, their horse became frightened and ran into a fence, throwing both women to the ground. The carriage passed over Mrs. Knapp's chest, fracturing three ribs, and she died an hour later. Mrs. Tuttle was but slightly bruised.

Hailstorm in Nebraska.

OMAHA, July 27.—Specials from interior points give accounts of terrific hailstorms in various sections of Nebraska last night. At Franklin the wind blew a hurricane. Several houses were unroofed and a grain elevator was destroyed. At Kearney much minor damage was done in the city. Reports from the country have not been received so damage to crops can only be guessed at.

Oil for Warships.

A Hoosier Claims to Have Made a Valuable Discovery.

ANDERSON, Ind., July 27.—Judge M. A. Chipman has gone to Washington to file patent applications and interest proper government officials in inventions by Frank M. Reed of this city, which have been completed, tested practically and found to be capable of revolutionizing the handling of war vessels at sea. The inventions carry out to perfection the idea originated by Russia in using oil instead of coal for a fuel for war vessels.

Reed's invention covers a system of oil burning which would make it possible for a vessel like the Indiana to carry enough fuel to last on a trip around the world. The system is gas generation from oil. The gas is generated by an atomizing plan, is smokeless, and capable of a tenth more heat than the Russians get, or 33 per cent more heat than the government is now getting from coal, making it possible to work up to great speed.

Instead of 30 stokers, which are now necessary on a great war vessel, one man could handle all of the valves. Another one of the inventions covers a storage tank that is absolutely bullet and shell proof. The cost of the equipment is very small and would be paid for in a month or so in the saving of fuel.

A Thief Overtaken on a Bicycle.

RUSHVILLE, Ind., July 27.—William B. VanSickel, a Milroy liveryman, hired a horse to a stranger who represented himself as a stockbuyer. Learning afterward that the fellow was a horse thief, VanSickel mounted his bicycle and followed in pursuit. The stranger had five hours the start of VanSickel, but the latter, after a 50-mile chase, overtook the rig in Ripley county. VanSickel commanded the horse thief to halt, but the latter leaped from the rig and escaped into a cornfield. VanSickel drove the horse back to Milroy, resting his trusty wheel.

Indiana Miners Destitute.

INDIANAPOLIS, July 27.—Messrs. Connor and Terhune, the governor's special strike commissioners, made their report yesterday, and Governor Mount at once called a conference of state officials and leading citizens. The result was an appeal issued late last night to the people of Indiana calling for aid for the striking coal miners. A committee has been appointed to receive subscriptions. The miners in many cases are destitute.

Fight Results in Murder.

ENGLISH, Ind., July 27.—Jesse Melton, who was stabbed by H. A. Woodford last Friday evening, died at 5 p. m. yesterday. Woodford was arrested for attempted murder, on which he gave bond, but after the death of Melton he was brought here and recommitted on the charge of murder. His condition is serious, owing to several wounds on the head inflicted by Melton.

Drowned in the Mississinewa.

LAKEVIEW, Ind., July 27.—Dr. William Butler, a veterinary surgeon of this place, and Edward Renbagen of Swayzee with others, were camping in the vicinity of Lafontaine, on the banks of the Mississinewa river, and yesterday, while engaged in seining fish, both were drowned in a deep hole.

AT RUGGLES.

The Attendance Very Gratifying—A Dream That Came True—A Rainy Ride For Seven.

RUGGLES CAMP GROUNDS, July 26, 1897.

Editor *Union*: We are all torn up in the camp. Somebody has gone and stolen the great big heart of our President. It took a nice horse and buggy to carry it away. It went right by our good brother Harrop, but he couldn't stop it; then by our gate-keeper and, he looked most wishfully at them as if he would like to have had a gate fee, and it actually passed by your scribe but I could only say that I had been there myself. John Wheeler, of Maysville, sent one of his biggest watermelons after them, but this had no cooling effect. Then as they passed by it seemed as if he was imploring her for liberty, but she was deaf to all entreaties. Now what can we, or will we, or shall we do, but to say, so mote it be? This is no joke, if it did come from camp meeting.

We had a copious rain fall last night. It fairly fell in sheets, but the people of Maysville need have no fears for we are well sheltered. Rev. Brother Alkman, of Vanceburg, preached at 3 o'clock yesterday evening and Rev. Mr. Jolley, of Augusta, at night. Subject, "The Rich Man and Lazarus." At 6 o'clock this morning Rev. G. B. Frenger led the sunrise prayer service. This will be the only service of the day, but preaching and regular service at 7:30 o'clock.

Yesterday proved a most delightful day. All the services were enjoyed by the large well-behaved congregation in attendance, and our gate receipts show that we had more than twice as many in attendance than we did on the first Sabbath of last year.

Brother George Harding was telling me a dream he had last night. He dreamed he was out on an island and surrounded by water; stretching out his legs he felt something cold and there sure enough he was surrounded by water, for he was sleeping all by himself in a tent that did not have a very good roof and on a canvas cloth that would not let the water through as it dripped from the roof, and stretching out his legs he stuck his feet in it, and so here is one dream that came true sure enough.

Bob Politt left the grounds late last night with a load of seven people. The rain overtook them at Bridgeport and when they got to Maysville you could very plainly tell that they were wet. If you don't believe it ask Sam Simonds.

Our meeting is being enjoyed by old and young and the rain has made it the more pleasant. There is an impressiveness about all the services and from this time on I believe the results are going to be glorious and that this camp meeting of 1897 will record the names of many who have been saved. Among the new arrivals to-day are, Rev. J. A. Colledge, Rev. L. P. Hanks, M. J. W.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, *The People's Common Sense Medical Adviser*, he announced that after 600,000 copies had been sold at the regular price, \$1.00 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps to cover cost of mailing only, and the book will be sent postpaid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The free edition is precisely the same as that sold at \$1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

ABERDEEN, OHIO.

Private picnics are the order of the season. J. W. Jones will move to Maysville, Ky., if he succeeds in renting a good farm.

Mrs. Mary Guthrie, of Portsmouth, is visiting friends and relatives at this place.

One of the largest crowds ever witnessed attended the ice cream supper at Slickaway Church Thursday night. It was repeated Friday night.

A. P. Brookover will give a grand opening next week; such a display of the newest styles in dry-goods was never seen in Aberdeen at prices to suit all purses.

John Brookover and family will soon move to town and occupy the Small property on Third street. Mr. Brookover is obliged to retire from farming on account of poor health.

Mrs. Hugh Power contemplates moving her family to Maysville in September. H. W. P. Cooper will rent her farm and property. His beautiful residence on the pike he will rent to Mrs. Kate Ellis.

A Cycle Crash.

[Exchange]

A cyclist of 150 pounds weight, and moving at the rate of 100 feet per second (about seven miles per hour), has a momentum of 1,500 pounds without counting the weight of his wheel. A collision between two 150 pound riders, wheeling at the moderate pace of seven miles an hour, would result in a smash-up with a force of 3,000 pounds.

LOUISVILLE TOBACCO MARKET.

Sales Continue Very Large and Prices Have Been Well Sustained on Most Grades.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 3,829 hhds. with receipts for the same period 3,925 hhds. Sales on our market since January 1st amount to 104,288 hhds. Sales of the crop of 1896 on our market to this date amount to 88,895 hhds.

Sales have continued very large and we are glad to be able to report that prices for the good to fine grades of burley and also for good mediums, have been well sustained. Colory sorts, except the commonest types, have also remained firm. Common grades, especially when out of condition, are irregular and some easier. The shipper of tobacco can not be too careful as regards order as it means from \$1.50 to \$3 per hundred between good and bad order. We reached the highest price of the season last week for a single bid, and for a crop round. The crop was from Henry County and averaged \$17.94, the best bid, bringing \$24.

There will be no sales on this market during the first week in August. This proposed mid-summer recess is thought advisable both from the standpoint of buyers and sellers. We are advised that the Cincinnati market would adjourn sales during the same period; and it is probable that the more southern markets would do likewise.

The following quotations fairly represent our market for burley tobacco (1896) crop:

Trash (dark or damaged)	2 00	3 00
Common colory trash	3 50	5 00
Medium to good colory trash	5 00	6 00
Common lugs, not colory	4 00	5 50
Common colory lugs	5 00	6 00
Medium to good colory lugs	6 00	10 00
Common to good colory leaf	7 00	12 00
Medium to good leaf	12 00	16 00
Good to fine leaf	15 00	18 00
Select wrappery leaf	18 00	24 00

THOMAS RICE was convicted in the Greenup Circuit Court last week of horse-stealing and given three years in the penitentiary. He was defended by Lieutenant Governor Worthington. Isaiah Riffe was sent up for two years for stealing cattle.
